

# A GIFT FOR MY *Family*

# GEOFFREY T SOWMAN

FUNERAL DIRECTORS &  
MONUMENTAL MASONS

What our family members and friends  
often aren't aware of is our life story from  
our younger years.

This book is for you to give some thought  
to, and to record and share your memories.

How would you like to be remembered?

What if you could be a comfort  
even after you're gone?

Maybe give people a reason to smile...  
Or better, to laugh?

What if you could leave behind memories  
that everyone could cherish?

What a remarkable legacy that would be.

Sometimes the greatest comfort is to be  
wrapped securely in our memories.

MY LAST  
*Wishes*

Often, people say they 'Don't want a fuss' or 'Put me in a cardboard box'. But what about the people who are left behind? What do they need?  
What do they want?

Grief is a difficult thing and a funeral, in whatever format it comes, is a huge part of the grieving process for family and friends. It is an event where people come together to remember, share stories, cry, laugh and get human to human contact in their grief. In short, it's important, and although it's about you, it's not for you.

Sure, there are all the official and technical things that need to be sorted but what else? Doves? Bright colours? Bagpipes? Flowers from your back garden?  
(Almost) anything is possible.

Make your funeral a true reflection of your life and spirit and one that feels right for you. No request is too small or too hard when it comes to making your final farewell meaningful for you and your family. Understand your options, record your choices, and spare your family worry about arrangements and decisions. Personal funerals are our specialty.

My will is located...
